Subject: Testimonial

My dad who was 92 yrs old and living on his own was in need of care so I started searching on the internet for options other than a nursing home or an assisted living facility. I came across the Senior Helpers website and inquired about information within one day I received it. I contacted them to set an appointment. When Michael their representative came to the house he explained the whole program to me I was very impressed and decided to give it a try, it was the best decision I ever made. Senior helpers provided my Dad with very professional and compassionate care takers, he started looking forward to them coming each day. Senior Helpers gave me the peace of mind knowing he would have company each day, someone to take him to his appointments and to cook him healthy meals. If you are thinking of this kind of service for a loved one I urge you to make the call you will not be sorry
