To: 'Michael Dumbrell'

Subject: Testimonial - Michael Russo

"Michael, the company's owner, is very, very attentive to my family members. He listens to what they express they need and strive to make it happen. From the services of Senior Helpers, my family members' conditions have greatly improved and they no longer need hospice services. Their physician has expressed how pleased he is with their improved condition. The staff sent to work with my family has been terrific!" -Michael R.
